

Efka[®] PB 2720

general

defoamer

- supports quick de-aeration of thermosetting resin systems
- allows easy processing of foam and blister-free self leveling compounds and laminates

chemical nature

solution of defoaming substances, silicone free

Properties

physical form

colorless, clear to slightly hazy liquid

storage

Efka[®] PB 2720 should be stored in a cool dry place.

typical properties (no supply specification)

solvent	alkyl benzene/ industrial spirit (boiling range 140–165°C)
density at 20°C	~ 0.84 g/cm ³
refractive index	1.474
flash point	26 °C (79°F)

Application

Efka[®] PB 2720 can be used in pigmented or non-pigmented resin systems such as:

- unsaturated polyesters (SMC/BMC gelcoats and synthetic mortars)
- two-pack epoxies
- PVC-compounds

If used in combination with Efka[®] FA 4644 in pigmented compounds, a lower viscosity results thereby aiding the air release properties.

recommended concentrations

0.1–1.0% on total formulation

Efka[®] PB 2720 should be incorporated by simple mixing. A homogeneous mix will increase the efficiency.

Validity

This Technical Data Sheet is valid for all versions of the Efka® PB 2720.

Safety

When handling these products, please comply with the advice and information given in the safety data sheet and observe protective and workplace hygiene measures adequate for handling chemicals.

Note

The data contained in this publication are based on our current knowledge and experience. In view of the many factors that may affect processing and application of our product, these data do not relieve processors from carrying out their own investigations and tests; neither do these data imply any guarantee of certain properties, nor the suitability of the product for a specific purpose. Any descriptions, drawings, photographs, data, proportions, weights, etc. given herein may change without prior information and do not constitute the agreed contractual quality of the product. The agreed contractual quality of the product results exclusively from the statements made in the product specification. It is the responsibility of the recipient of our product to ensure that any proprietary rights and existing laws and legislation are observed.
