Joncryl[®] FLX 5000 with its good resolubility is very suitable for general surface print jobs on PE and PP with low to medium demand on resistance; e.g. dry food packaging and boutique bags. Also for printing in line with extrusion, Joncryl[®] FLX 5000 based inks offer the right resolubility and printability behavior.

The Joncryl[®] FLX line has been introduced to support the conversion from solvent to water-based ink for film printing applications.
