

Efka® SL 3883

general reactive slip and leveling agent

· improved slip and surface smoothness

increased anti-blocking effect

good substrate wetting

· even distribution of matting agents

chemical nature polysiloxane-modified polymer with unsaturated terminal groups

Properties

physical form clear to slightly hazy, slightly yellowish liquid

storage Efka® SL 3883 should be stored in a cool dry place.

typical properties active ingredients ~ 70 %

(no supply specification) solvent butyl acetate/isobutanol

density at 20 °C (68 °F) ~ 1.04 g/cm³ flash point 24 °C (75 °F)

color ≤ 2

Application

Efka® SL 3883 is a polysiloxane-modified polymer which is terminated by unsaturated groups. These reactive groups crosslink with coating and printing ink systems which are cured by photo initiators or peroxides. Efka® SL 3883 can be used in all coatings, especially wood and plastic

coatings and paper finishes, cured by vinyl polymerization.

recommended concentrations 0.2 – 1.0 % on total formulation

Efka® SL 3883 should be added at the end of the batch preparation.

Validity

This Technical Data Sheet is valid for all versions of the Efka® SL 3883.

Safety

When handling these products, please comply with the advice and information given in the safety data sheet and observe protective and workplace hygiene measures adequate for handling chemicals.

Note

The data contained in this publication are based on our current knowledge and experience. In view of the many factors that may affect processing and application of our product, these data do not relieve processors from carrying out their own investigations and tests; neither do these data imply any guarantee of certain properties, nor the suitability of the product for a specific purpose. Any descriptions, drawings, photographs, data, proportions, weights, etc. given herein may change without prior information and do not constitute the agreed contractual quality of the product. The agreed contractual quality of the product results exclusively from the statements made in the product specification. It is the responsibility of the recipient of our product to ensure that any proprietary rights and existing laws and legislation are observed.
